

Dear _____:

The primaries and caucuses are now coming to an end and soon we will turn our attention to a general election that is one of the most historic in contemporary history and which presents us with a stark choice: Will we continue down a path of failed international and domestic policies that have created deep schisms around the world and here at home? Or will we set our sights upon the path of true patriotism, compassion, justice and equality, of which Americans are justly proud?

The latter question is not rhetorical because of the challenges we will face in rebuilding relationships with the world and with our own citizens that have been ripped apart under George W. Bush's administration. It is because of these huge challenges that we need a president who is every bit as determined to create a just, compassionate and equal society and world, built on truly patriotic ideals, as George W. Bush has been in destroying these ideals.

As a voter, I support Sen. Clinton for president. I am asking you to support and stand with Hillary Clinton for president, as well:

- Sen. Clinton has won primaries in the largest and most diverse states and regions of the country;
- Sen. Clinton has won the majority of Democratic support across the country;
- Sen. Clinton has won the largest share of popular votes – “of the people”;
- Hillary has the strongest chance and the broadest Democratic coalition to win an election in November;
- She has the broadest knowledge about and experience of the challenges we face;
- She has the track record to shepherd Democratic policy goals as president.

For some informed reading on the above points, I refer you to these excellent reports and polls – each of which I have reviewed in depth, as have the vast majority of Sen. Clinton's supporters

For all of these reasons, I believe that Sen. Hillary Clinton is the best candidate for these challenging times. I urge you to endorse and stand with Sen. Clinton as the Democratic Party's nominee for President of the United States.

Thank you for taking the time to read this letter and for reviewing the materials linked to this letter. I hope that you take my comments as a voter into consideration as you weigh your own decision as a superdelegate.

Sincerely,
